| 10-12 in. | 1.50 | | |

CAMELLIAS

The Camellias are the stateliest of all the broad-leaved evergreen blooming plants grown in southern gardens. Some varieties start flowering in the early fall followed by other varieties until spring. The varieties we are listing are all highly desirable as we do not propagate unsatisfactory sorts. The group they are listed in is determined by the scarcity and demand.

RARE CAMELLIAS

Group No. 1

| | |
|---|---------------------------------|
| ADOLPHE AUDUSSON VARIEGATED..... | 12-15 in. |

TERMS OF BUSINESS

TERMS: Our terms are cash. If plants are to be reserved for later shipment a 25 % deposit will be required with order.

PRICES: All prices are f.o.b. our Nursery and are subject to change without notice. A discount of 20 % from prices quoted is offered to nurserymen, florists and dealers. Purchasers entitled to this trade discount are requested to use business letterheads or identifying state certificate or license when ordering.

GUARANTY: We guarantee our plants to be well-rooted, healthy, free of disease, and properly packed and prepared for shipment. We cannot guarantee plants to live, since the planting, care and growing conditions to which they are subjected after leaving our nursery, are out of our control. If correctly treated, they will do well.

PACKING AND SHIPPING: If order has to be crated, a packing fee of 10 % of amount of invoice should be included with order. We will ship by means instructed. If goods are damaged in transit, file your claim with the carrier.

CONDITION OF SALE: We accept all orders on condition that they shall be void should injury befall stock.

PLANTING SEASON: Generally from the middle of October to the middle of March.
